*Plants, Bulbs, Seeds
and Nursery Stock*

CUSTOMER'S ATTENTION

CUSTOMERS PLACING PLANT, BULB AND SHRUB ORDERS SHOULD READ THE FOLLOWING CAREFULLY: (This does not apply to seed orders)

Plant orders will be shipped any time of year weather will permit, but positively no orders will be shipped C. O. D. that contain plants.

GUARANTY—All plants are guaranteed to reach our customers in good condition within 600 miles of Chicago (4th zone) when shipped by Parcel Post and beyond also when 15c is added to the order to cover postage for SPECIAL DELIVERY. The 15c only covers the additional postage required by the Government in Special Handling of packages. R. F. D. customers should instruct their Postmaster to notify them by phone of the arrival if same cannot be delivered promptly. All Special Delivery packages travel first class mail, same as letters. All EXPRESS orders are guaranteed to reach our customers in good condition any place in U. S. A.

PACKING—Many customers prefer to have all the soil left on the roots in ball form. If order is to be shipped by Parcel Post 5c a plant must be added to cover special packing and postage. When order is to be shipped by Express collect no additional charge need be added. Orders that do not stipulate this special packing will be handled in the usual manner by removing most of the soil and packing the roots in damp moss, when shipped by Parcel Post.

SHIPPING INSTRUCTIONS

All seeds are prepaid by us and no allowance need be made for postage when order is to be shipped by Parcel Post. Plants, Bulbs and Nursery Stock to be shipped by Parcel Post must have sufficient postage added to the order, otherwise we infer that customer wants the order shipped by Express.

Positively no charge is made by us for boxing and packing. Use scale below according to the Zone you live in and add sufficient postage for each dollars worth of Plants, Bulbs and Nursery Stock or fraction thereof. (Example: On a \$1.50 order from Maine for Plants, send 18c for postage). Remember: We add "Extras" to all orders to help pay postage.

To Our Customers and Friends

For 42 years we have been striving to improve our service to our customers and at the same time keep our prices within the reach of all. We believe that you will find our prices more reasonable, our service more efficient and our quality the highest that money can buy. We have thousands of satisfied customers in all parts of the country.

Every customer has a right to expect the most for his or her money. An old well organized firm can always give better service and stock. Our 42 years should mean something to all of our customers. By sending us your order you are assured of *Service, Quality, Value and a Square Deal.*

Hoping to have the continued patronage of all our old customers and feeling confident that our new customers will be highly pleased with the treatment we give them, I am

Faithfully yours,

A. L. Pike
President

WE GUARANTEE TO SATISFY YOU AND SAVE YOU MONEY

We guarantee to save you money, to satisfy you perfectly, to make safe delivery of all seeds, bulbs and plants. (See plant Guaranty elsewhere).

Our seeds and bulbs are guaranteed as to purity and vitality to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with our seeds. Success with seeds depends largely upon soil and climatic conditions and it is also acknowledged that a mistake can be made in planting, therefore, it is mutually agreed that in no case shall we be liable for more than the amount actually paid for the seed. We also guarantee every article in this catalog to be honestly described and illustrated.

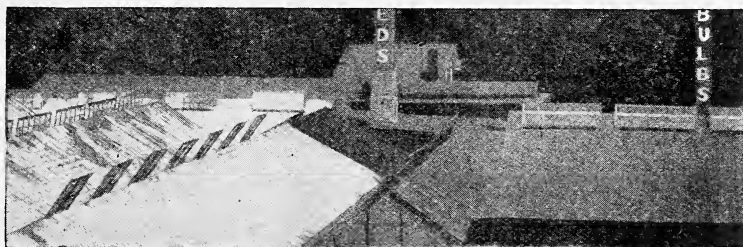

HOW TO ORDER BY MAIL—It is very easy to order seeds from us by mail. In making out your order the first thing to do is to see that you have your Name, Post Office, R. F. D. and Box, County and State in full in the places designated for the purpose. Write the variety below, quantities you want and carry out the prices after each one. Enclose the total amount in any convenient form of remittance with your order and mail to us and we will see that your order reaches you in the best of condition. (Be sure and use our order sheet if you have one.)

CUSTOMERS ATTENTION—When making out your seed order, kindly keep the vegetable and flower seeds separate on your order, which will make the filling of the order much easier and quicker.

HOW TO SEND MONEY—Remittances can be sent safely either by Post Office Order, Bank Draft, Express Money Order, Check or by Registered letter.

DELIVERY—Orders for seeds will be filled and sent as soon as received. Plant orders will be sent as early in the spring as the weather is safe, unless earlier shipment is requested.

REMEMBER that Canadian and foreign postage stamps have no value in the United States.

Dutch Bulbs for Early Spring Flowers

We issue a fall list of Dutch Bulbs each fall, along with plants and other bulbs that are suitable for fall planting such as the Madonna Lily, etc., which cannot be planted any other time of year and to all those that are interested we will either send them our old list or the new list later in the season on request. Orders for this stock are shipped during the months of September, October and November. As most all fall planting bulbs are grown in Holland, it is advisable to place your orders early, for late orders are often returned, for it takes about a month to get our bulbs from Holland after they are shipped. Drop us a card if interested, today.

NOTE: Please read shipping instructions on inside cover page. If order is to be shipped by Parcel Post, be sure and remit sufficient postage required for every dollars worth of plants ordered or fraction thereof.

RICHMOND 22c This attractive rose has scarlet crimson pointed buds with very fragrant flowers carried on long stems. The flowers stand well above the foliage on strong stems and dark foliage. One of the most prolific roses for the garden. Each, 22c; 3 for 58c.

HARDY CLIMBING ROSES

Climbing roses are very ornamental when grown on trellises in the yard or on wire netting at the end of porches or verandas. They succeed best in a rather heavy soil and should be well mulched with half rotted manure in the fall to keep up the fertility in the soil. We offer nine of the most popular varieties.

CLIMBING AMERICAN BEAUTY 28c Same color and fragrance as the American Beauty only a climber. Will produce 20 times as many flowers as the American Beauty in the month of June, besides blooming occasionally during the summer. Perfectly hardy. Each 28c; 3 for 78c.

AQUATICS or WATER PLANTS

We offer some exceptional stock of these popular plants and all are guaranteed to blossom the first year. **CULTURE:** Secure a butter or lard tub from your Grocer and use good rich soil with cow manure mixed with it or any good commercial fertilizer. Place one bulb in each container, covering up to crown. Sand or gravel can be used on top to prevent discoloration of water and also to prevent fish from disturbing bulb. Allow from 10 to 18 inches of water on top of bulb for best results. To winter we recommend taking bulbs inside. Store where they will not freeze.

PIKE'S "Can't Be Beat" Flower Seed

Flower seed listed under this heading will not live over winter in the northern states and where half hardy annuals are sown in the fall they should be protected after the ground freezes. By following the directions given these seeds will give wonderful results.

CAUTION—Great care should be taken to sow the seed **SHALLOW** and to cover as thinly as possible with sifted soil or sand and press firm with a board then cover lightly with Granulated Peat to conserve the moisture. This prevents soil from crusting. Keep watered frequently so that the soil will not crust on top, for the tender sprouts cannot push through the hard surface unless kept moist. Be very careful when watering not to wash the soil or sand and expose the seed, for if you do the germination will be destroyed. If possible use a FINE rose top sprinkling can when watering. (By following these instructions carefully, one will be surprised how easy it will be to succeed with my seed which has a high germinating test.

MAGNIFICENT NEW DAHLIA-STELLA

This is a new and striking form of a Cactus type of Dahlia has a recurved shape of the petals that suggests the shape of a Star-fish. The colors are varied and the flowers are borne on long stiff stalks. Pkt., 20c.

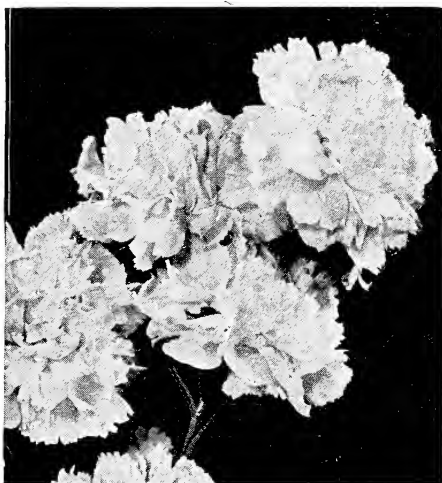

BEAUTIFUL ANNUAL PHLOX NOLA

This phlox has all the habits of the old fashioned Drummondii, but the flowers are violet blue, a shade that is very distinct, making this plant especially attractive and desirable for edging and borders. Pkt., 15c.

A NEW SENSATION JAPANESE CHRYSANTHEMUMS

A unique type of a miniature Chrysanthemum that will produce many flowers the first year from seed. The flowers are quite tiny and have many shades of colors. The foliage is finely cut or laciniated, adding very greatly to the plants beauty. Because of its thrifty growing qualities and profuse blooming it will be found good for mass or border planting. Pkt. 15c.

CHINESE CARNATION

A new annual that is rather dwarf growing and is covered with beautiful bright red flowers throughout the summer. One of the finest acquisitions of late years to the garden from the Orient. Pkt., 20c.
